

Your "Plasma TV" Gift From God

A step by step instruction on using the gift

Open the box, Take it out

In order for the gift to be enjoyed, of benefit and to serve its purpose, we first need to open the gift box and bring out the gift within. We then need to display it where it can be seen. When we have done that, we can sit back and admire the gift, but it will still serve no real purpose; the purpose that it was created for; the way that the giver has intended for us to enjoy and use it.

At this moment, the only thing the Plasma TV can do is to collect dust and take up space.

Plug in to the main power, switch it on.

Tap into the power of God to supply the flow of energy for the Plasma TV. The power of God is more than sufficient to provide for endless hours of joy in using the gift.

Warning: If you try to modify the Plasma TV set to use a battery pack that does not come from the original manufacturer, the set will not work for long. Warranty may also be voided.
